  - Experienced Staff
  - Sterile jewellery and equipment
  - Private rooms
- Female piercers available

## **Frequently Asked Questions**

**How do I prepare for a piercing?** We always welcome “walk-ins”. Appointments can also be arranged so you won’t have a long wait. If you have any health issues, which might impact your ability to heal, please consult with your piercer before you get a piercing. Eating before hand helps.

**When can I take the jewellery out & not lose the hole?** There are two stages to healing. The initial stage seals the piercing and thus reduces the chances of infection dramatically. The second stage is longer and is the time it takes for the piercing to “toughen up and season”. During and after the latter stage, jewellery can be removed for varying lengths of time. The piercing will begin to shrink as soon as you remove the jewellery. How long it takes to shrink to a degree that you can not reinsert the jewellery varies. Never force jewellery into a piercing which has reduced in size though!

**Do you use a piercing gun?** A professional piercer would never use an ear piercing gun for body piercing. There are many reasons for this - the jewellery design is inappropriate as the post is too short to allow for swelling and proper cleaning, and the backing can trap infectious matter close to the piercing.

**What about swimming pool and hot tubs?** Generally O.K. as chlorine is added to pools and spas to kill bacteria. We would ask that you avoid river water though.

**Do piercings usually grow out?** Eyebrow is the most common piercing to grow out. Of the more usual piercings, navels have a tendency to grow out. Placement has a lot to do with success, so you can increase your chances by having the piercing done by a skilled professional. Be sure to follow proper aftercare and minimize as much as possible the irritation caused by clothing which is tight or restrictive.

**Why choose essential beauty over other piercing places?** As a company group we have pierced over 400,000 people since 1997! We average around 1,500 people a week across all our stores Australia wide. We have regular health inspections, friendly qualified staff, autoclave sterilisation and we take time after your piercing to explain home care. Quite simply, we love what we do and we want to share it with you!
