

Microdermabrasion

The first step in Cosmetic Skin repair

Microdermabrasion, using Diamond technology provides a simple approach to healthy, youthful skin for men and women of all ages. It offers the most sophisticated and advanced system to regenerate and revitalize the skin. Whatever the aesthetic skin condition, Microdermabrasion works to bring it to a healthy state in a gentle, non-invasive manner.

The Diamond Organic Skin Resurfacing Grains offer a gentle polishing, while still delivering the great results and micro-massage skin rejuvenation you want and expect from Microdermabrasion. Now you can treat the skin more frequently and increase benefits such as collagen stimulation, nourishing blood stimulation and smooth skin surface.

Be the first to experience **Organic Microdermabrasion**, the newest, most innovative system in Microdermabrasion technology. This unique system is specially engineered to deliver an exciting, new proprietary blend of organic ingredients such as Lignin and Cellulose.

This simple, quick and convenient procedure has become very popular with people showing the early signs of aging, sun exposure and other facial imperfections.

Non-invasive and non-wounding to the skin's surface, the procedure entails virtually no discomfort, down time or recovery. Patients typically experience some redness for about an hour after the procedure.

Benefits:

- ▶ Virtually no side effects.
- ▶ Gives the skin an overall fresh, healthy-looking glow.
- ▶ Non- surgical, safe, effective "lunch hour" procedure.
- ▶ Effective on all skin colors and types.
- ▶ No anesthetic required.
- ▶ Excellent for skin sensitive to chemical procedures

Indications:

In addition to the face, Microdermabrasion can be successfully used on the neck, arms and hands. It is also beneficial for patients with darker skin types. This rejuvenation method is generally indicated for:

- ▶ Dull, oily or leathery skin
- ▶ Fine Lines "crows feet" and Wrinkles
- ▶ Traumatic Scars
- ▶ Sun Damage
- ▶ Clogged & enlarged Pores
- ▶ Acne Scars
- ▶ Calloused Skin
- ▶ Flaking and dry Skin
- ▶ Uneven Texture
- ▶ Ingrown Hairs

- ▶ Dehydrated Skin
- ▶ Chicken Pox Scars
- ▶ Rough Skin
- ▶ Exfoliating & suctioning
- ▶ Mild pigment irregularities
- ▶ Enhancing penetration of therapeutic agents

Costs:

Microdermabrasion is relatively inexpensive when you compare it to the cost of cosmetic surgery or the many creams you may have tried that haven't produced the desired results. Treatments start at \$120.

Side effects:

Microdermabrasion may cause tautness and a slight redness to the skin, which will subside within a few hours. Although uncommon, some patients may experience streaking of the skin from increased blood flow. This will fade over a day or two.
